The fifth race yesterday was a curious one. Before half the distance had been traversed. the field was straggled out over a distance of an eighth of a mile. Yet four out of the five runners closed together in the stretch and made one of the prettiest finishes of the mosting, short heads apart.

The friendly tip given in these columns yesterday regarding the advisability of studying up Washington and Gloucester form, came just a little too late, or there might have been many of THE EVENING WORLD'S followers on the Aims filly at 10 to 1 for a place. The Alma filly ran well at Washington, but yesterday was overlooked entirely. However, there are more good talogs coming.

Martie Corbett and Jack McDonald pulled off another large wad yesterday on Kempland. They have had great good inck lately, and every one is leafuly glad of it, for they are two of the aquarest, up-and-up men at the track. They are deservedly popular and no one begrunges them their good fortune.
